2011-2012 COMPREHENSIVE SCHOOL IMPROVEMENT PLAN Jamestown Elementary School

Mission Statement

The mission of Jamestown Elementary School is to advance our overall academic and social performance to a proficient level. Each year, the JES SBDM Council reviews the mission statement and makes any necessary changes if needed.

Executive Summary

Jamestown Elementary School's faculty, staff, and concerned parents, in a united effort with members of the community and business leaders, worked to develop a school improvement plan that is relevant to the needs of JES students. Component teams were made up of teachers, staff, parents, FRC personnel, community members, and interested business persons. Each component team developed strategies and activities that would support the overall goals for success at Jamestown Elementary.

All certified staff participates in a professional development day set aside in the school calendar for the purpose of data analysis and school improvement planning. State assessment result (for this year included KY Interim Performance Report, NCLB AYP Report and spring 2011 ITBS), AIMS Web benchmark results, classroom assessment data, FRC survey data, and program review data. Content area PLC's analyzed the data and strategizes avenues of improvement. The entire faculty met back whole group to discuss findings and begin the improvement planning process. The SBDM Council compiled all the findings, considered all perspectives then determined school priorities for improvement.

Evaluation methods to validate effectiveness of the 2011- 2013 comprehensive school improvement planning goals and strategies includes the spring 2012 K-PREP, AIMS Web Benchmarking, Cambridge EXPLORE Benchmarking, ECU Diagnostics, STAR Reading, STAR Early Literacy, and Study Island.

The goals of our Comprehensive School Improvement Plan were developed by addressing the needs of students not reaching proficiency in the content area.

The component teams will make Implementation and Impact Checks periodically with results being reported to the SBDM council. Benchmark data will also be obtained, monitored, and recorded on the CSIP. School improvement is an ongoing process that will be evaluated and expanded as our needs change.
