

UNION CHAPEL ELEMENTARY  
RUSSELL COUNTY BOARD OF EDUCATION

NOTICE TO SCHOOL EMPLOYEES

In accordance with EPA regulations, the Union Chapel Elementary Building has been inspected for friable (easily crumbled) as well as non-friable (not easily crumbled) building materials which contain asbestos. Asbestos-containing materials are known to cause health problems when fibers are breathed or ingested.

Non-friable asbestos-containing building materials found at the Union Chapel Elementary Building are typically present in the following materials:

- (1) Thermal System Insulation
- (2) Floor Tile

A record of the Management Plan, a diagram of the locations of friable and non-friable asbestos-containing materials and a copy of relevant EPA regulations are available in the Principal's Office for review by any employee of the Russell County Board of Education.

For further information, interested persons should contact the Russell County Board of Education's EPA designated person, Kenneth Pickett.
